

# Grundfos Cirkulationspumpe med variabel hastighed rustfri stål 2" udvendig gevind 10bar 1.19A 230VAC sort/rød WRAS type MAGNA3 32-80N (180) (7039838)

GRUNDFOS 

# TEKNISKE SPECIFIKATIONER

|       |          |
|-------|----------|
| Farve | sort/rød |
|-------|----------|

|           |              |
|-----------|--------------|
| Materiale | rustfri stål |
|-----------|--------------|

|             |      |
|-------------|------|
| Godkendelse | WRAS |
|-------------|------|

|           |              |
|-----------|--------------|
| Pump body | rustfri stål |
|-----------|--------------|

|                      |                         |
|----------------------|-------------------------|
| Materiale impeller 1 | glasfiberforstærket PES |
|----------------------|-------------------------|

|             |                 |
|-------------|-----------------|
| Tilslutning | udvendig gevind |
|-------------|-----------------|

|      |        |
|------|--------|
| Volt | 230VAC |
|------|--------|

|                  |        |
|------------------|--------|
| Maks. temperatur | 110 °C |
|------------------|--------|

|                                            |        |
|--------------------------------------------|--------|
| Mindste mellemtemperatur<br>(kontinuerlig) | -10 °C |
|--------------------------------------------|--------|

|                |   |
|----------------|---|
| Antal impeller | 1 |
|----------------|---|

|          |       |
|----------|-------|
| Frekvens | 50 Hz |
|----------|-------|

|                                  |       |
|----------------------------------|-------|
| Maksimal<br>omgivelsestemperatur | 40 °C |
|----------------------------------|-------|

|      |        |
|------|--------|
| Tryk | 10 bar |
|------|--------|

Minimum ambient temperature 0 °C

|      |                     |
|------|---------------------|
| Type | MAGNA3 32-80N (180) |
|------|---------------------|

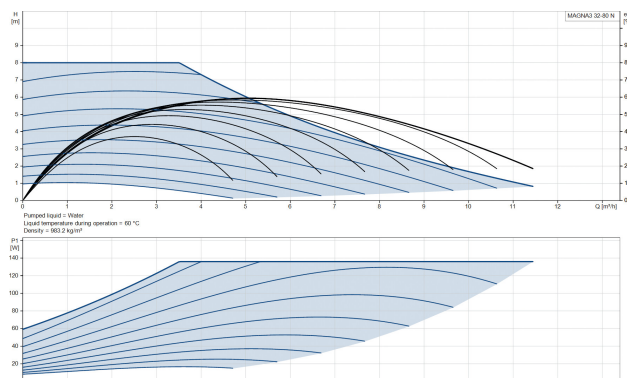

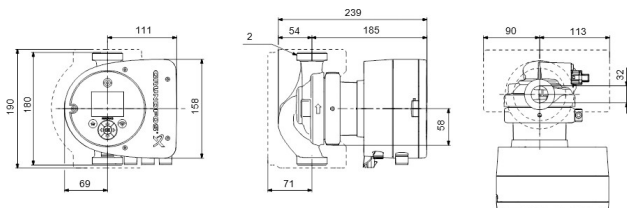

|                  |     |
|------------------|-----|
| Maks. Løftehøjde | 8 m |
|------------------|-----|

Størrelse

2"

Ampere

1.19 A
