| Utloppstryck | 3,45 bar                        |

## PRODUKTINFORMATION

Pressure regulator landscape grade is ideal for installations requiring lower flows (114 to 1590 L/hr). The unit maintains a constant preset outlet pressure with varying inlet pressures, which alleviates pressure differences that can cause an applicator's area of coverage to change.
